White/Red	Secondary Oxygen sensor	C8
Green/Yellow	VTEC solenoid	A8
Blue/Black	VTEC oil pressure	B5
Red/Blue	Knock sensor	B19

A - Plug

B - Plug

C-Plug

Connect the wiring using the above guide and diagram of the ECU plugs. The connections at B5 and B19 replace existing wires. You can cut and connect the new wires or use the Honda pin removal tool for a cleaner installation. The part number for the tool is 07JAZ-002010A and is available from Honda.
